

Interview Practise Tasks

There are two tasks to complete today:

Firstly, check out these two videos on YouTube. On a new note card, write down one thing you learned from each video.

Secondly, I would like you to focus on how to anticipate questions in a specific interview scenario. We have three specialised rooms for pathway entrance interviews.

Choose one of the three scenarios - either entry to: police training, nursing degree or early childhood/teaching course. I want you to look at info on the web for the course you select.

Police:

Nursing:

Teaching:

Based on this information, on your note card write out at least five questions you think would be asked at that particular interview.

Try out your questions on a partner in the specialist interview room.

Don't forget to save your note cards and put them into the drop box at the back of the build.
